## **Preface to the First Edition**

*It is our endeavour to provide text book of natural drugs to the students of degree/diploma/PG classes in pharmacy professions and pharmaceutical industries. This text book covers many chapters like history & scope of pharmacognosy, sources of crude drugs, extraction methods, and standradization of crude drugs, adulteration and evaluation etc. Our aim and reflection to provide up to date and relevant knowledge of the natural drugs and emphasis on providing their realistic pharmacognostic standardization and methods engaged in research of this field.*

*We thank management of SAS publisher especially, Dr. Habibur Rahman for his efforts and co-operation in publishing this book.*
